

Personal protective equipment (PPE)

- Have you assessed workplace hazards that might require PPE and reviewed related injuries?
- Has the assessment been documented?
- Does the documentation identify the workplace evaluated?
- Has training been provided to each employee who is required to wear PPE?
- Has the training been documented?
- Are protective goggles or face shields provided to employees and worn when there may be danger of flying material or caustic or corrosive materials?
- Are ANSI-approved safety glasses worn at all times in areas where there is risk of eye injury?
- Are protective gloves, aprons, or shields provided to employees for protection against cuts, corrosive liquids, and chemicals?
- Are hardhats provided and worn where there is a danger of falling objects?
- Are hardhats inspected periodically for damage to the shell and the suspension system?
- Do employees exposed to vehicular traffic wear high visibility garments that make them stand out from their surroundings?
- Do workers wear reflective garments at night?
- Are appropriate respirators provided for regular or emergency use where they are necessary?
- Is there a written respirator program?

- Are the respirators inspected before and after each use?
- Is a written record kept of all inspection dates and findings?
- Have all employees been trained in work procedures, and proper use and maintenance of protective clothing and equipment for cleaning up spilled toxic or other hazardous materials or liquids?
- Is a spill kit available for employees to clean up spilled toxic or hazardous materials?
- Are employees required to wear safety shoes when they are exposed to conditions that could cause foot injuries?
- Is all protective equipment sanitary and ready to use?
- Is there an eyewash facility and a quick-drench shower in each work area where employees are exposed to caustic or corrosive materials?
- Do employees have lunch areas in areas where there is no exposure to toxic materials?
- Is protection from occupational noise provided when sound levels exceed those of the OR-OSHA hearing conservation standard — 1910.95?
